**Missouri Weekly Cattle Auction Summary 09/27/21**

Receipts: 18,816 Week ago: 24,962 Year ago: 26,154

Compared to last week, feeder steers and heifers sold steady to 5.00 lower with the full decline seen on bawling, unweaned steer calves. The supply of feeders was light to moderate with the majority of the offering calves under 600 lbs. Those that are unweaned and without shots seeing the least interest from prospective buyers, as most folks just aren't willing to take on animals with that kind of health risk currently. A few loads of yearling still showing up but much smaller now that fall has arrived. A couple of the top loads from last week was a load of steers at Unionville Livestock Market averaging 827lbs. which sold at 160.75, another load of steers at Kingsville Livestock Auction averaging 737 lbs. sold at 164.00. Local demand has been light, as nearly every combine in the state is in the fields now. Corn harvest is rolling along at a near record pace and some beans have been cut now as well. The weather has been about as good as one could wish for harvest and farmers are taking advantage of that. The forecast in the coming weeks doesn't seem to show any major events that might slow down progress either. The monthly cattle on feed report was released on Friday. Placements were reported at 102.3, on feed at 98.6, and marketings at 99.6. Overall the report was viewed as bearish as placements and on feed were both larger than expected and marketings were just slightly lower. Negotiated feed lot sales as of the Friday afternoon report was at 62,500 head. Live sales were reported from 123.00-124.00 and dressed sales from 194.00-198.00. Boxed beef cutouts continued to decline this week with choice closing at 303.32, down 11.15 and select at 274.53, down 5.22 for the week. The Missouri Stocker Formula consist of 3118 head with a weighted average weight of 555.02 lbs. and a price value of 165.73, 0.04 higher than last week.
